

REVOLUTIONARY HELP FOR RETAILERS & EXHIBITORS

Lenticular... the art of engagement

Adding the “wow” factor!

Engage your prospects successfully with a new level of visceral promotion!

With Tracer, you can add enormous lenticular images with captivating 3D imagery and animation to trade show exhibits, events and retail displays. Your environment will skyrocket with enthusiasm while you improve brand and message retention. Morph or Flip images from one scene to another. Educate viewers on product features with custom animation. Showcase before and after photos. Demonstrate mechanical concepts or choose captivating 3D! The independent research on lenticular is compelling! Contact us for complete information and quotes.

- ▶ Prospects **voluntarily** engage with images, far surpassing traditional graphics
- ▶ Boosts response and increases brand memorability up to **91%**
(as compared to traditional print media ranging from 7 to 14%)
- ▶ Any size up to: **65" high x 48" wide!** Velcro® adaptable or frame insert, backlighting optional

Matching products for effective promotions
